

**Crescent**<sup>®</sup>  
BRAND

A job this big demands  
the right wrench.

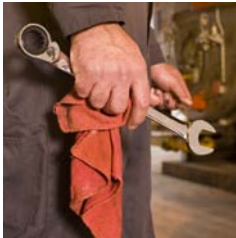

Crescent ratcheting wrenches  
give you the power of choice.

  
**COOPER** Tools

# Combination. Reversible Combination. Pivot Head Combination.

Ratcheting wrenches ready to tackle any job.

There's a perfect Crescent ratcheting wrench for every application. A Standard Combination for the simple stuff. A Reversible Combination when things get a little tougher. And a Pivot Head Combination for those impossible-to-reach situations. Each one is perfectly balanced and hard coated with a deep chrome finish that leaves no doubt these are superior-quality tools made to do their job and stay like new for years to come.

**STANDARD** Combination

Low-profile Rapid Reverse lever controls turning direction with a flick of your thumb.

**REVERSIBLE** Combination

All feature mirror-finish chrome vanadium steel construction, exceeding ANSI specs for strength.

**15°** OFFSET

15-degree offset for better leverage, greater comfort, and fewer skinned knuckles.

**PIVOT HEAD** Combination

Open-end faces are parallel to within  $\pm 0.001$  for better contact and higher torque transfer.

## 180° FLEXIBILITY

Head pivots 180° so it can be aligned perfectly with a fastener from virtually any angle.

**EFFECTIVE:** These wrenches turn fasteners with just a 5° swing vs. 30° needed for standard wrenches. They work where others can't.

**VERSATILE:** Perfect for positioning and tightening bolts on threaded rods, these wrenches work in places even deep sockets don't reach.

**STRONG:** The box end ring gear has 72 extra-fine teeth, precision machined and specially heat-treated for exceptional strength.

# Packaging that shows and sells

Packaging for every Crescent ratcheting wrench grabs your attention and sells the quality benefits of these tools. Both kit and individual wrench packages have a "Try Me!" design that allows people to see for themselves the benefits of the ratcheting feature.

*Seven-piece sets come in a heavy-duty open-face carry case made of tough textured plastic. Case features an integral carry handle for added convenience.*

*Individually packaged wrenches come on durable plastic hanging display cards. Features and benefits shown in English, Spanish, and French.*

*Four-piece sets come in a heavy-duty storage tray made of durable textured plastic. Custom-fit cutouts keep the wrenches organized and close at hand.*
