

● **Nicholson**<sup>®</sup>

The quality choice  
in chainsaw files

Now in a moisture-proof 3-pack

  
**COOPER** Tools

## More choices. Same Nicholson quality.

For generations, Nicholson® has been recognized as the premier source of quality files. As a result, Nicholson is the largest and most widely known brand of files in the world. Our product offering is exceptionally wide and every file produced has over 100 years of file making experience behind it.

Nicholson chainsaw files are the preferred choice of professionals who demand peak chainsaw performance. Now our most popular chainsaw files are available in three different packaging styles, so you can buy them just the way you want...in boxes of 12, as carded skin-packed singles, or in the new sealed hanging three-pack.

Bulk files are wrapped in protective oilpaper and come in a recloseable box.

Each 3-pack is sealed against moisture and has a pre-punched hole for hanging retail display

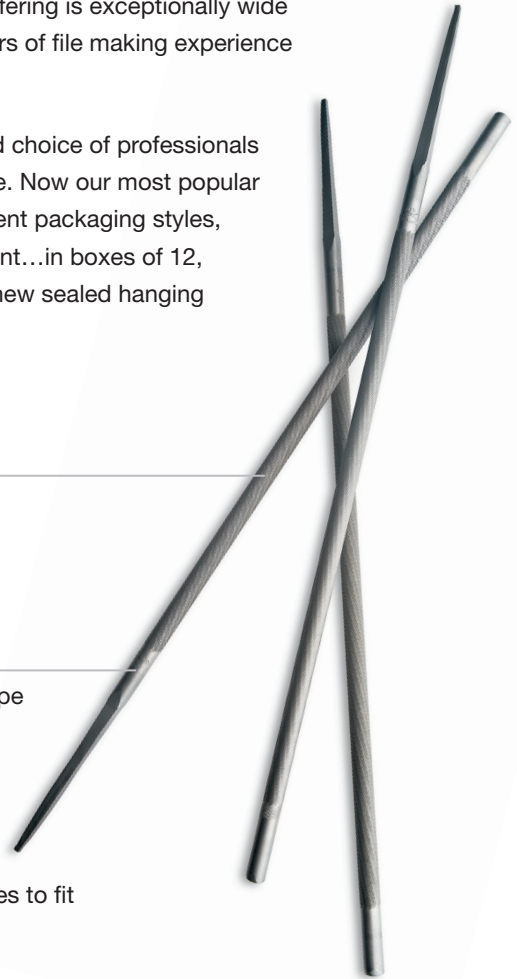

Carded singles are blister-packed for hanging retail display

Made from high quality steel

European style, design, and shape

Full range of sizes to fit every saw chain
